EDITORIAL.  
-----

Yet again the newsletter is late, but this is purely down to, the editor obtaining a new computer, and most of my spare time organising the 1995 UFO Conference.

The Roswell film allegedly showing the autopsy of one of the aliens recovered from the Roswell crash is bubbling along at the moment and appears to be in the forefront of British Ufology at present. In Maria wards current newsletter Circles Research March 95, Maria updates us on the incident. She says that the autopsy takes place in a 'BARN', and the two doctors are removing armfuls of intestine. There is also discrepancy in dates, as the film is dated some 18-25 days after the alleged incident, and the 30.7.47. I cannot comprehend an autopsy being carried out in a barn under such unhygienic circumstances. I am aware, that the debris was flown out almost as soon as the crash had been discovered, and therefore, why not fly the bodies out as well. There are witnesses to the effect that the army at the time wanted caskets the size of children. I wonder why, if not to transport the recovered bodies to an unknown, heavily guarded base, to a proper mortuary, where a full autopsy could be carried out.

In the Independent newspaper of the 29th March 1995, Mr Philip Mantle of BUFORA, writes 'It shows a scene in the desert', 'Two men in white coats (Surely they are wearing some kind of protective clothes ie face masks, rubber gloves !!) (It sounds a bit as if these two men dressed in white should be on a funny farm, and not carrying out an autopsy...!!!), are taking 'Samples and inspecting something on a bench' (What about the intestines Phil, or is it just sausages from the local butchers I hear you ask?). Then in an interview in the Daily Mail on the 28th March 1995, Mr Mantle states that the film shows 'The inside of a 'temporary' structure, a tent of some kind - in the desert, lit by 'Lamps not electricity'. 'The two men in white coats appear to be taking 'Tissue samples' (By the handful it seems !!!!!).

I still cannot comprehend the archaic way these alleged bodies were treated. Surely, the military have electric generators that could provide electric lighting (Next we will be told that the MIW's (Men In White), wore miners helmets with lamps on to see what they were doing).

I feel we have not heard the last of this film footage, and all I can say is, buyers beware, you may get your fingers burnt. I also see that the footage is to be shown at the BUFORA conference in August in Sheffield. Well, if this doesn't pull the crowds in, then nothing will (I understand that BUFORA is a bit short on members, and if this goes pear shaped, as I think it will, then BUFORA may become a thing of the past.... Watch this space.....)

One last thing concerning the Roswell incident, is that Polygram Video's wrote to me recently advertising a new video 'Roswell' (I assume that they mean Roswell - The Movie, which was screened on American prime time television in 1994 ?). This 87 minute film is to be released on the 19th April 1995, with an 18 certificate (My 2 copies must of had the naughty bits cut out... Just my luck !!!!!). Now comes the sting in the tail, you can have a copy for just £35.00 (that works out at 40p a minute folks)... People know how to make money out of Roswell don't they.....!!!!!!!!!!!!!!!!!!!!!!...ED

'WE ARE NOT ALONE!'

-----

Calling all earthlings - prepare for an out-of-this world experience at a Hampshire conference .

UFO spotters worldwide will be converging on a Hampshire school for a meeting organised by Southampton expert Steve Gerrard.

Steve, 32, has become a worldwide celebrity in the closely-knit circle of UFO watchers.

The part-time policeman runs Southampton UFO Group, whose soaring membership includes fanatics throughout Europe and America.

International phone calls and letters arrive daily at his Woolston semi, crammed with 7,500 press cuttings, 300 books and over 150 videos of flying phenomena.

An extra terrestrial sighting over Southampton Water in 1985 launched Steve into his extra-terrestrial hobby.

"A big ball of orange light appeared over Hythe - it just hung in the sky, and then it moved as though it was going down a flight of stairs," said the father of two.

Bust most strange sightings have a terrestrial answer explained Steve, a computer terminal operator with Hampshire Police.

"Ninety-six per cent of all sightings can be explained - but it's the four per cent that you can't put an answer to that we're interested in," said the special constable who patrols a footbeat in Netley, "I think there is a form of life out there that may be trying to make contact with us.

"The government is aware of this, but they're covering it up because of the panic it would cause," said Steve, of Weston Grove Road.

The conference lifts off at Warblington Secondary School, Portsmouth, on April 22.

ALIENS ARE CAPTURED....ON FILM.  
-----

After Reg Presley appeared on Ann & Nick, and dropped the bomb shell about the film footage found on the Roswell incident, he has hit the National Press (The People?). He basically tells the same story as he did on the television item about this film. And, as far as I can make out, he has upset even more people by this article. The article mentions that a video (not Reg's video) will be for sale in April (see the editorial). All I can say is nice one Reg, you appear to of really stirred up a hornets nest over this one !!!!!!!!!!!.

7.3.95 : THE PORTSMOUTH NEWS.  
-----

This was the first of the two articles to appear in the Portsmouth news within 4 days of each other. Unlike the second article, this article was much better and again looked at the Portsmouth group and a good plug for the conference.

11.3.95 : THE PORTSMOUTH NEWS.  
-----

SEARCHING SKYLINE FOR THOSE VISITING ALIENS.  
-----

We all like a bit of advertising for such events as meetings, sightings and conferences, and this article covers the latter. The article was concerned with the Portsmouth group : Southern Paranormal Investigations, but as usual the journalist twisted the words. The only really good thing about the article, has been the publicity for the 1995 UFO Conference. All in all a bit of journalistic C\*\*p.....

RADIO :  
-----

16.2.95 : BBC Radio 2 : Jamessons Show : Peter Hough :  
-----

Peter Hough was interviewed concerning his new book concerning the supernatural called - Supernatural Britain.

2.3.95 : BBC Radio Solent : Steve Gerrard. (ME !!!!!)  
-----

Thats right folks,yours truly was featured on the local radio station,and lived to tell the tale.It was really to publicise the UFO conference in April and I certainly did that as well as looking at the conspiracy theories etc.Sandy Jones was well versed and put me on the spot.But the last word was to tell everyone that I was employed by Hampshire Police Authority,and in my spare time I was a special constable.....A trusty person....????

TELEVISION :  
-----

16.2.95 : The X-Files :  
-----

As ever,this program never fails to astound me in its content and this program was no different.our intrepid heroes find out that a listening station in Puerto Rico has made 'Contact' with you know who ? They find that the main witness has been killed and they rescue the tapes that the contact was recorded on.As usual,it appears that someone may have got there before them.A very good program,and as with the discovery program,I would give it 10 out of 10.

18.2.95 : Discovery Channel :  
-----

This fascinating program looked at the development of the Stealth A117 fighter with an insight to the aircraft,aerial footage and interviews with the pilots.This was a very interesting look at an aircraft that has been blamed for many UFO reports and in fact,I think has been the source of a number of reports from all over the world.I would give this program 10 out of 10,and well worth a look at.

2.3.95 : Ester Ransen talk show :  
-----

I felt very sorry for Maria Ward,as she was not given a fair chance on the program.Ester Ransen in my opinion did not believe her story or others featured on the show.I did wonder where they got the audience from,as they laughed and clapped at the more serious items,and seemed to find it all a bit of a joke.Harry Harris was on the show,and also Alan Godfrey (what show about Alien Abductions/encounters would be without him), and two other females who were abducted.I would give this program 6 out of 10 just for effort.

#### 4.3.95 : Beyond belief :

---

This featured Uri Gheller and was a look at such things as spoon bending, walking on fire and just a general look at the weird and wonderful. I would give this program 4 out of 10 for effort.

#### Magazine Reviews.

---

##### 1. ENIGMAS : Feb/Mar 95 :

### Video and Audio material.

---

I have a Video/Audio collection, which is probably the largest collection of this type of material in Southern England. The catalogue contains refs to 151 Video's and 320 Audio tapes. For a copy of either the Video or Audio catalogues, send 4 first class stamps. For both, please send me 6 first class stamps to the editors address. If you would like to exchange Video or Audio material, then drop me a line, and I am sure that we can come to some sought of amicable arrangement.

### Letter From America....

---

I received a letter from Chester Grusinski from Michigan, who related to me the events of a UFO sighting from the USS Franklin D. Roosevelt aircraft carrier in 1958. The ship was on a shake down cruise near Gitmo, Cuba when this cigar shaped object with a row of windows came up to our ship. It had figures inside watching our ship. Then it turned a red-orange colour. (This is when I could see its cigar shape, because it was dark outside). It took off, up very fast. Bridge watch was screaming on the ships intercom for the officer of the deck or bridge to get up on the double. The ships manoeuvres stopped suddenly for some unknown reason. They kept the incident quiet. Chester has sent me a number of letters from other witnesses at the time, also documents etc, that I hope to look at in the next edition of the newsletter.

UFO Talk Oaklands Community School 23 February 1995.  
-----

I attended the Oaklands Community School (Once I found it after going round a roundabout twice !!), to give a talk to a meeting of the Paranormal Studies & Investigations Group. The talk was to last about 30 or so minutes, but in fact lasted an hour. I presented 3 cases that I have dealt with over the past 5 years. I was received with a warm welcome from the 40 or so members present. The talk ended with a round of questions and a very heated debate on a wide range of related subjects.

Tail Ender...Conference 95.  
-----

Just a few things to update you about the 1995 UFO conference on the 22nd April. Things are going really well, and as of today 6th April 1995, we have sold 195 tickets, with only 5 tickets available before the conference. On the day, we have kept a further 50 tickets back to sell at the door if anyone turns up on the day. There are no changes to the speakers to report and we have someone who is coming along on the day to sell food and drink. The following items will be available to purchase on the day :

1. Video material.
2. Audio material.
3. New books.
4. Secondhand books.
5. Magazines.
6. T-Shirts and Baseball caps with logo's.
7. Computer discs.

I hope that you enjoy the day if you are coming along, and if this is a success as we hope that it will be, then we hope to run something similar in the next 12 - 15 months or so.

One final thing..I was recently contacted by a reader and asked why didn't I have a readers letter page. Well, here's your chance. If you send me your letters, then I will print them. It is as simple as that, so get those pens to paper and have a chance to say something...For Free !!!!!!!
